Dekorator Color Weekend Matt™

Colored interior paint for walls and ceilings

AREA OF APPLICATION:

Durable decorative coating for interior painting of walls and ceilings. Allows easy cleaning when dirty.

CLASSIFICATION:

- Water soluble product
- Binding agent - polymer dispersion
- For interior use
- Color range: white and 25 finished colors

APPLICATION DESCRIPTION:

The paint should be thoroughly mixed before use. Apply to sound, well-cleaned surfaces. Priming with a suitable wall primer is recommended. Apply in **two coats** at intervals of about **3 hours** with a brush or a roller. For achieving the best results, it is advised that the temperature of the treated surface **does not exceed +35°C** and relative ambient **humidity of 60%**. Work at temperatures above **+10°C**. After finishing work, the tools should be cleaned immediately with water. The paint supplied is ready for use. If necessary, it can be diluted with water up to 5%.

- **Consumption:** 100-120 ml /m² for full coverage depending on color

- **Drying:** 3 hours at 23°C

STORAGE:

Shelf life **36 months** from the date of manufacture, in factory sealed packaging. Store in dry and covered storage areas, protected from direct sunlight. Storage temperature of **+5°C to +35°C**. Keep away from **frost**.

PACKAGING:

The paint is available in plastic packaging from 2.5L.

Note: For uniformity of the colour of the coating, one or more packages should be mixed before use

TECHNICAL DATA

Appearance after stirring:

Homogeneous dense mass

<i>Content of non-volatile substances (105±2)°C/ 2h, in %:</i>	57÷65
<i>pH Value:</i>	8÷9,5
<i>Brookfield viscosity KU-2 at (23±0.5)°C, in KU:</i>	100 ÷115
<i>Density, in g/cm³:</i>	1,50÷1,65
<i>Stability at (23±2) °C, up to grade 4, in h not more than:</i>	3
<i>Maximum VOC content for this product (Cat. A/a):</i>	30 g/l
<i>Color:</i>	Spectrophotometric with total color difference $\Delta E \leq 2$
